

Summary of 2023 Key Tax Facts

2023 Standard Mileage Rates

IRS released optional standard mileage rates for 2023, determined in accord with Rev. Proc. 2019-46. The rates are as follows:

- 65.5 cents per mile for business purposes
- 22 cents per mile for medical purposes (the moving expenses deduction is not available for 2023)
- 14 cents per mile for charitable purposes (set by statute, thus does not change annually)

2023 “Token” Amounts

The deductible amount for “insubstantial benefits to donors” for 2023 was increased by 40 cents to \$11.70.

To paraphrase IRS Publication 1771 (for 2023):

Token Exception — Insubstantial goods or services a charitable organization provides in exchange for contributions do not have to be described in the acknowledgment.

Goods and services are considered to be insubstantial if the payment occurs in the context of a fund-raising campaign in which a charitable organization informs the donor of the amount of the contribution that is a deductible contribution, and:

1. The fair market value of the benefits received does not exceed the lesser of 2 percent of the payment or \$125, or
2. The payment is at least \$62.50, the only items provided bear the organization’s name or logo (e.g., calendars, mugs, or posters), and the cost of these items is within the limit for “low-cost articles,” which is \$12.50.

Free, unordered low-cost articles are also considered to be insubstantial.

Two things:

1. Note that the token amounts represent the *cost* to the charity, not fair market value.
2. Token items can generally include books and similar items that are marked or stamped with the charity’s logo or name.
