

## 2021 Tax Year in Review

After the somewhat wild, COVID-marred year we had in 2020, we hoped 2021 might be a little bit milder year for Business Offices at Bible Colleges and Seminaries. Well...

Many Bible Colleges and Seminaries were blessed by government “aid” and increased contribution dollars. Others saw donations stagnate or fall off. Enrollment at many schools was bolstered by their new or upscaled on-line programs.

Then, there were challenges with retaining students and employees.

It appears that the overall “theme” for Business Offices in 2021 was something like “unclear compliance.” Murky government guidance on COVID-19 funding, Congress going back and forth on programs, and just way too much required knowledge – Arrgghh! Enhanced (let’s use that nice word) recordkeeping and reporting have proved to be a challenge for us all.

Looking back, 2021 seems to be a year of uncertainty at every level. The only answer is Jesus!

For more on 2021 and the tricks, traps, and tips, take a look at:
